

CS 4223 Project Checkpoint #6

Due October 27

Assignment

Enhance your Slic parser so that it correctly parses assignment statements. Include semantic code to build an abstract syntax tree and a code generator to produce executable GSTAL code that correctly implements the semantics of the Slic program.

What to Turn In

Zip your source code files, including the *makefile*, and turn them in via Blackboard by class time on the due date. *You are not required to turn in a hardcopy.*
